

Inkberrow Bowls Club Going Green

New Season – New Mower

Thanks to a grant from Wychavon District Council we now possess an electric (battery operated mower) for our bowls green.

This will enable us to carry out a multitude of tasks with one machine and by changing a range of attachments we can now scarify, spike, brush and aerate our green.

The mower is a Cobra Fortis 25FTE 63cm/25" Fine Turf Battery-Powered Cylinder Lawn Mower. It has come supplied with 2 batteries for a longer cutting time.

This will enable us to have one of the best lawn bowls greens in the county.

With the help of the grant we have been able to purchase a range of attachments which include: a Scarifier, Dethatcher, Aerator, Grooved roller, Lawn brush and Verticutter. This means that instead of needing 4 or 5 different machines we only require one.

Some of the attachments

Verticutter

Scarifier

Aerator

The purchase of Inkberrow Bowls Club Battery Mower was part funded by the UK Government through the Rural England Prosperity Fund in partnership with Wychavon District Council.
